Our Capabilities

Our Business

BEP Engineering & Maintenance was founded in 2015 by owner and director, David Burgess. BEP employs a team of five exceptional staff who share over 30 years' experience in the industry. Our team specialises in sales and service of all pump types, irrigation systems and associated equipment to the Mining, Agricultural and Industrial sectors. BEP work with a wide range of stakeholders in Queensland including farmers, engineers, local councils, sugar mills and key management personnel. We create a stress free experience for all our customers with a high level of service provided to help ensure the correct solutions are found for your business the first time.

We service most areas in Central Queensland including Mackay and surrounds, Sarina and surrounds, Proserpine and Whitsundays and Coal Fields. BEP have an extensive network of skilled contractors helping to provide a one stop solution for all your Mechanical, Electrical and Fabrication needs. We pride ourselves on having highly skilled and qualified staff available to work in any environment.

BEP has a fully equipped workshop and field service units on call for your maintenance and breakdown repairs along with the ability to supply cranes, riggers and all other equipment that may be required.

Our Promise

We believe in consistent quality, second to none service and ensuring the job is done right the first time. BEP are dedicated to your business offering complete sales and service thus giving you a one stop solution for all your Mechanical, Electrical and Fabrication needs.

BEP offer free estimates and reasonable rates to help you save money and time. We provide professional advice and quality products to achieve the best solution for our customer's needs. We are on call 24/7 to help with any and all enquiries allowing you to get back to business faster.

Management Systems

Safety

At BEP, we have a genuine commitment to operate in a safe and responsible manner and ensure that our team are dedicated to upholding safe workplace practices. BEP demands and achieves the highest level of Health, Safety and Environmental performance from all of our employees, contractors, customers and community. We have a detailed safety system in place to help prevent injury and accident in the workplace and have no room for recklessness, shortcuts or complacency. It is in this culture that our employees, customers and community remain safe whenever we're at work.

Environmental

At BEP, we believe that the preservation of our environment and surrounds should be factored into all our operations and projects. Each project BEP takes part in, our team carefully considers all environmental factors and analyses work with each client to meet their site specific requirements. These key controls are monitored and reported so that we are able to reduce our carbon footprint, minimise waste and find sustainable industry practices for the benefit of future generations.

Quality

BEP has a commitment to quality, customer service and value for money. Our customer satisfaction is of the utmost importance to us. Quality manuals and procedures are in place to ensure that we always meet our customer's needs and expectations and adhere to statutory and regulatory requirements.

Insurance

BEP has the following current insurance in place these allow us to complete our work without hassle:

- Public Liability Insurance – covered up to \$20 million
- WorkCover Insurance

Customer Service

Response Time

BEP has a reputation of working closely with our clients. We work on building long-term relationships with our clients and work hard on understanding their current and on-going business and technical requirements.

Through our understanding of our client's needs we are able to offer them cost-effective, prompt and professional service within in the Mining, Agricultural and Industrial sectors.

Community

BEP is proud to support the Mackay community and surrounding region. All of our employees are local to the Mackay region and we use local supply chains where possible.
